June 10, 2009

AIM PowerGen Corporation is pleased to provide this letter supporting the XAG Energy assessment and training initiatives and further, their supply chain network creation and coordination activities. AIM PowerGen Corporation is grateful for the opportunities to deploy throughout Canada and Ontario and as a corporation committed to the success of the province of Ontario and Canada and its manufacturing and service industries, we believe that the supplier network approach initiated by XAG Energy will assist us and others like us in meeting that commitment in an equitable and efficient manner.

AIM PowerGen Corporation will support XAG Energy and its network of companies by holding an advisory position as various supplier assessment and training initiatives are developed and deployed. Further, our key personnel will be available to XAG Energy management to advise on overall network companies needed for industry growth and original equipment manufacturer support by Canadian suppliers. We believe that, through AIM PowerGen Corporation's on-going industry needs assessment and regular transmission of this information to XAG Energy, an extensive network of potential suppliers is a highly efficient and effective manner of keeping Ontario and Canadian companies aware of leading-edge opportunities.

AIM PowerGen Corporation strongly supports the XAG Energy concepts and initiatives.

Please feel free to contact me should you require any further information.

Best regards,

David Timm  
Vice President, Strategic Affairs
